CME

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e., operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

Faculty

Cole, Peter - Chairperson

MD

Professor, University of Minnesota

Chief of Orthopaedics, Regions Hospital

Division Medical Director, HealthPartners Orthopaedic & Sports Medicine

Program Medical Director, NorthStar Trauma Network

St. Paul, Minnesota

Peter A. Cole, MD, Professor, University of Minnesota, Department of Orthopaedic Surgery; is the Division Medical Director for HealthPartners Orthopaedics and Sports Medicine; Program Medical Director, NorthStar Trauma Network; and Orthopedic Trauma Director, Regions Hospital in St. Paul, Minnesota. Regions Level I Trauma Center also serves as an AO North American Fellowship Center for international trainees. He is a graduate of the University of Miami School of Medicine, Orthopaedic Residency at Brown University in Providence, before sequential fellowships in Orthopaedic Trauma at Brown and Harborview Medical Center. After 4 years in Jackson, Mississippi at the University Medical Center, he was recruited by the University of Minnesota and HealthPartners to build a trauma program at Regions Hospital in 2002. Dr. Cole is a passionate explorer in the field of Orthopaedic Trauma and lover of innovation and discovery. He has developed a worldwide reputation as an educator and researcher on advanced trauma topics including chest wall injury, articular fractures, and minimally invasive fracture surgery techniques. Perhaps he is best known for his landmark work in the diagnosis and treatment of scapula fractures and chest wall injuries now at the forefront of surgical treatment options for injured patients. Dr. Cole is a member of the American Academy of Orthopaedic Surgery, Orthopaedic Trauma Association, and Christian Medical and Dental Society. He is a former AOA North American Traveling Fellow, and an active faculty member for AO International. He and his family have run an Orthopaedic Medical Mission in the Amazon Jungle of Peru since 2004, where he enjoys challenging surgical problem solving for conditions in all phases of natural history rarely seen in North America.

Barei, David - Lecturer

MD, FRCSC

Professor

Fellowship Director, Orthopaedic Traumatology

Department of Orthopaedic Surgery

Harborview Medical Center

University of Washington

Seattle, Washington

Haase, Douglas - Lecturer

MD

Assistant Professor

Orthopaedic Trauma

The University of Missouri

Columbia, Missouri

Weatherby, David - Lecturer

MD

Orthopedic Trauma Surgeon, Regions Hospital

Assistant Professor, University of Minnesota

Trauma Fellowship Director

St Paul, Minnesota

David J. Weatherby, MD, FRCSC Assistant Professor, University of Minnesota, Department of Orthopaedic Surgery, is a dual subspecialty trained orthopedic surgeon in trauma and upper-limb. His practice is center on the care of trauma patients with broken bones. He also specializes in the care of shoulder and elbow pathologies, such as arthritis, shoulder arthroplasty, trauma, scapula fractures, and chest wall injuries, including rib fractures. He is the Orthopedic Trauma Fellowship Director at Regions Hospital a Level I Trauma Center in St. Paul, Minnesota, which also serves as an AO North American Fellowship Center for international trainees. Dr. Weatherby is a graduate of the University of Calgary, Cumming School of Medicine in Calgary, Alberta, before sequential fellowships at the University of California Davis, in Sacramento, CA in Orthopaedic Trauma and Dalhousie University, in Halifax, Nova Scotia in Upper-Limb Surgery. Dr. Weatherby is a member of the America Academy of Orthopaedic Surgeons, Orthopaedic Trauma Association, Chest Wall Injury Society, AO Trauma North America, and Canadian Orthopedic Association. He is serves on the Fellowship & Career Choices Committee for the Orthopaedic Trauma Association. He enjoys challenging surgical problem solving for conditions in all trauma areas.

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used or discussed in this educational activity is for teaching purposes only with the intent to enhance the learning experience.

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the educational activity.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques/ approaches discussed or demonstrated which are for teaching and educational purposes only. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.
