

## AO VET NA Course—Advanced Techniques in Small Animal Fracture Management with Wet Lab

 April 7, 2022 - April 10, 2022  
Columbus, Ohio, USA

The **AO VET NA Advanced Techniques in Small Animal Fracture Management with Wet Lab** course expands upon the concepts presented in the **AO VET Principles in Small Animal Fracture Management** course and adds new subjects for discussion with both dry and wet lab experiences. Fractures, nonunions, arthrodesis, and orthopaedic complications are among topics covered. Faculty will present new techniques and innovative orthopaedic concepts. Participant interaction with the faculty is an important part of this program. The added wet lab for this year will allow participants to perform approaches and stabilize fractures using a variety of implant systems and application techniques. Ample opportunity is provided in both the practical labs and the lectures to have your questions answered by some of the best veterinary orthopedists in the world. After completing the course, participants should be able to apply the principles and techniques they have learned to challenging small animal orthopaedic cases.

### Target Audience:

Enrollment is open to veterinary residents, interns and practicing veterinarians.

Prior attendance at an **AO VET Principles in Small Animal Fracture Management** course is a course prerequisite

## Event Summary

### Tuition:

Level Name: Participant - Veterinary  
Pricing Tier: Attending  
Tuition: \$1,700.00

Level Name: Participant - Veterinary  
Pricing Tier: Resident  
Tuition: \$1,500.00

### Course Prerequisite(s):

- Principles of Small Animal Fracture Management

### Venue:

Hilton Columbus at Easton  
3900 Chagrin Drive  
Columbus, OH, USA  
Phone Number: 614-414-5000  
[www.columbusoh.hilton.com](http://www.columbusoh.hilton.com)

### Language(s):

English

### Directly Provided by:

### Professional Level Prerequisite(s):

No Prerequisites

## CME

### Continuing Education Credit: 28.75

- AO North America is a Registry of Approved Continuing Education (RACE) Provider (Number 244).

#### Designation Statement

This program was reviewed and approved by the AAVSB RACE program for 28.75 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program if you have any comments/concerns regarding this program's validity or relevancy to the veterinary profession.

**The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e., operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.**

**Expected results of AONA's CME activities for surgeons, fellows, and residents are to:**

- **Increase their knowledge base and surgical skill level**
- **Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques**
- **Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)**

## Learning Objectives

**Upon completion, participants should be able to:**

- Integrate advances in the art and science of fracture repair into veterinary medicine, particularly as it pertains to small animals
- Apply new techniques and innovative concepts in fracture fixation to complicated cases in small animal surgical practice
- Discuss orthopedic complications and corrective osteotomies for small animals, particularly canines
- Define indications for internal fixation and the criteria for implant selection

## Faculty

### Kowaleski, Michael - Chairperson

DVM, DACVS, DECVS  
Professor  
Cummings School of Veterinary Medicine  
Tufts University  
North Grafton, Massachusetts

Dr. Kowaleski earned his DVM degree at the Tufts University School of Veterinary Medicine in 1993. After several years in general practice, he completed his residency training in small animal surgery at Tufts University in a joint program with the Angell Memorial Animal Hospital in 2002. He earned board certification by the American College of Veterinary Surgeons in 2003 and the European College of Veterinary Surgeons in 2010. He was an Assistant Professor of Small Animal Orthopedic Surgery at The Ohio State University from August 2002-August 2007 at which time he was promoted to Associate Professor with tenure. He returned to Tufts in 2007 and currently, he is a Professor of Small Animal Orthopedic Surgery at the Cummings Veterinary Medical Center at Tufts University. His areas of clinical and research interest include arthroscopy, enhancement of fracture healing, external skeletal fixation, fracture repair and orthopedic implants, total joint replacement, clinical and radiological assessment of limb alignment, osteoarthritis, peri-operative and chronic pain management, and the role of osteotomy in the management of joint disease.

### Saunders, W. Brian - Co-Chairperson

DVM, PhD, DACVS  
Professor - Orthopedic Surgery  
College of Veterinary Medicine & Biomedical Sciences  
Texas A&M University  
College Station, Texas

Dr. Saunders is a professor of small animal orthopedics at Texas A&M and a Diplomate of the American College of Veterinary Surgeons. He publishes in the area of implant biomechanics, stem cell biology, tissue engineering, and total joint replacement. He is a Founding Fellow in Minimally Invasive Surgery. He performs minimally invasive orthopedic surgery (arthroscopy and trauma), joint replacement, sports medicine surgery, and limb deformity correction.

### Agnello, Kimberly - Lecturer

DVM, MS, DACVS, DACVSMR  
Associate Professor of Small Animal Orthopedic Surgery  
ACVS Founding Fellow, Minimally Invasive Surgery (Orthopedics)  
University of Pennsylvania School of Veterinary Medicine  
Department of Clinical Studies - VHUP  
Philadelphia, Pennsylvania

Dr. Agnello received her veterinary degree from Cornell University, School of Veterinary Medicine and completed a small animal surgery residency at the University of California. She is a Diplomate of the American College of Veterinary Surgeons and the American College of Veterinary Sports Medicine and Rehabilitation. She is currently faculty in small animal orthopedic surgery at University of Pennsylvania. Dr. Agnello's clinical and research interests include minimally invasive surgery, angular limb deformity correction, and clinical trials for the treatment of osteoarthritis.

### Barnes, Katherine - Lecturer

DVM, MS, DACVS  
Clinical Associate Professor  
Texas A&M University  
College Station, Texas

Dr. Barnes is currently a Clinical Associate Professor of Small Animal Orthopedic Surgery at Texas A&M University. She obtained her DVM from Oregon State University in 2011 followed by an internship at Cornell University, and a 3-year surgery residency at Virginia Tech. She is a diplomate of the American College of Veterinary Surgeons with research and clinical interests that include fracture repair, arthroscopy, 3D printing, and the role of rehab in the treatment and recovery of surgical patients.

### Bruecker, Kenneth - Lecturer

DVM, MS, DACVS, DACVSMR  
Dr.  
Continuing Orthopedic Veterinary Education (COVE)  
Ventura, California

Dr. Kenneth A. Bruecker, DVM, MS Diplomate American College of Veterinary Surgeons Diplomate American College of Veterinary Sports Medicine and Rehabilitation Dr. Bruecker is the Founder of the Veterinary Medical and Surgical Group and Founder of Continuing Orthopedic Veterinary Education (COVE). [www.covesurgery.com](http://www.covesurgery.com) Dr. Bruecker is a board certified surgeon and also board certified in veterinary sports medicine and rehabilitation with special interests in orthopedics and spinal surgery. He has authored over 100 textbook chapters, journal articles, scientific manuscripts, veterinary and pet owner educational materials. He has been an innovator in the development of new surgical techniques and orthopedic implants. He has been performing arthroscopy for over 25 years. Due to his expertise in spinal surgery, orthopedics and arthroscopy he has been invited to educate and train veterinarians throughout the world. His commitment to the education of veterinarians, technicians and pet owners earned him the California Veterinary Medical Association's Veterinarian of the Year in 2004 as well as Viticus Hands-On Educator in 2022.

**Dejardin, Loic - Lecturer**

DVM, MSc, DACVS, DECVS  
 Wade O. Brinker Endowed Chair of Veterinary Surgery  
 Professor – Small Animal Orthopaedic Surgery  
 ACVS Founding Fellow – MIS Orthopaedics SA  
 College of Veterinary Medicine  
 Michigan State University

East Lansing, Michigan

Dr. Déjardin is the Wade O. Brinker Endowed Chair of Veterinary Surgery. He is Professor and head of Small Animal Orthopaedic Surgery at Michigan State University and a Founding Fellow of the ACVS Minimally Invasive Small Animal Orthopaedic Surgery Fellowship. Dr. Déjardin graduated from Toulouse Veterinary School (France) and completed his Surgical Residency then MSsc with Dr. Arnoczky at MSU. Dr. Déjardin authored ~90 research proposals (~\$7M), eight inventions and holds three patents on an interlocking nail and a targeting device for minimally invasive osteosynthesis. He received several prestigious awards in both veterinary and human medicine as well as in engineering, including the O'Donoghue Sports Injury Research Award (AOSSM), the Zandman Award (Soc. Exp. Mechanics), Distinguished Postdoctoral Veterinary Alumnus Award (MSU) and the Pfizer-Zoetis Award for Excellence in Research. His publications include >160 peer-reviewed scientific papers and abstracts, 20 book chapters and ~475 presentations in the US, Europe, Latin America and Asia. As an AO Foundation International Faculty and former Trustee committed to continuing education worldwide, Dr. Déjardin regularly speaks at national and international meetings and courses. He started a Minimally Invasive Osteosynthesis (MIO) program at MSU in the early 2000s' and developed a novel interlocking nail suited for MIO, well as a new technology devised for the MIO of sacroiliac luxations. Since 2009, Dr. Déjardin created and chaired the first comprehensive AOVET Master Course on MIO. His clinical interests include comparative orthopaedics, traumatology, MIO, revision surgery, as well as total joint replacement. His current research activity focuses on biomechanics, implant and instrument design, total joint replacement (elbow, hip, knee, ankle), as well as robotics and kinetics.

**Dyce, Jonathan - Lecturer**

MA, Vet. MB, MRCVS, DSAO, DACVS  
 Associate Professor Small Animal Orthopaedics  
 ACVS Founding Fellow, Joint Replacement Surgery  
 OSU Veterinary Medical Center  
 Hospital for Companion Animals  
 The Ohio State University  
 Columbus, Ohio

Jon Dyce graduated from University of Cambridge (UK) in 1989 and remained there to train as an orthopaedic surgeon. In 1997 he joined the surgery faculty at The Ohio State University Veterinary Medical Center, and is currently associate professor of small animal surgery. He is a regular speaker at national and international meetings on the topics of small animal orthopedics and total hip replacement. Among other continuing education responsibilities, he has been the chairperson for the OSU-BioMedtrix Canine Total Hip Replacement Workshop since 2002. Clinical research interests include failure mechanisms and the refinement of canine total hip replacement.

**Guiot, Laurent - Lecturer**

DVM, DACVS, DECVS  
 Orthopedic Surgeon  
 ACCESS Bone & Joint Center  
 ACCESS Specialty Animal Hospital - Los Angeles  
 Los Angeles, California

Dr. Laurent Guiot is a world-class orthopedic surgeon with a passion for excellence. He obtained his degree in veterinary medicine from the University of Liege (Belgium) in 2004 and completed a general internship in small animal medicine and surgery at the same institution. Laurent then worked for one year in Paris where he was in charge of the general surgery program. He rejoined academia in 2006 as an international surgical fellow at Michigan State University where he also completed a three-year residency program with a strong emphasis in orthopedic surgery and focus in minimally invasive osteosynthesis under Dr. Loic Déjardin's mentorship. He became boarded by the American and European Colleges of Veterinary Surgeons in 2011. Following his residency, Laurent became an assistant professor of orthopedic surgery in the Department of Small Animal Clinical Sciences and an attending orthopedic surgeon at the Veterinary Teaching Hospital at Michigan State University. He was then recruited to lead the creation of a new orthopedic surgery facility for the Ohio State University in Dublin, Ohio. In 2016, he created the Bone & Joint Center at ACCESS in Los Angeles with Dr. Reunan Guillou. This center is establishing itself as one of the prime location for advanced orthopedics and includes a comprehensive total joint replacement center, a strong minimally invasive orthopedic surgery program, and a tertiary referral service for revision cases. Dr. Guiot's major interest is orthopedic trauma and minimally invasive orthopedic surgery. He routinely presents his work internationally and is an active member of major national and international orthopedic programs including the Veterinary Orthopedic Society, the AO, and the Orthopedic Research Society. Laurent is committed to the improvement of patient care through the development of surgical techniques, instrumentation, and implants used for the treatment of orthopedic patients.

**Hudson, Caleb - Lecturer**

DVM, MS, DACVS  
 ACVS Founding Fellow, Minimally Invasive Surgery (SA Orthopedics)  
 ACVS Founding Fellow, Joint Replacement Surgery  
 Omega Veterinary Group  
 San Mateo, California

Caleb Hudson DVM, MS, DACVS-SA is a veterinary surgeon in San Mateo, CA. He is a native of Louisiana and attended Veterinary school at the University of Missouri. After receiving his Doctor of Veterinary Medicine degree in 2007, he moved to Gainesville, Florida to complete a rotating internship in small animal medicine and surgery at the University of Florida. Dr. Hudson stayed at the University of Florida to complete a small animal surgery residency and a masters program. After completing his residency, Dr. Hudson spent a year as faculty at the University of Florida. In 2013, he moved to Houston, TX and spent the next 12 years working at Gulf Coast Veterinary Specialists and Nexus Veterinary Specialists. In 2021 Dr. Hudson was awarded Founding Fellow status in Minimally Invasive Surgery (Small Animal Orthopedics) and in 2023 he was awarded Founding Fellow status in Joint Replacement Surgery, both by the American College of Veterinary Surgeons. In 2025, Dr. Hudson joined Omega Veterinary Group in San Mateo, CA where he is currently employed as an orthopedic surgeon.

**Jha, Shantibhushan - Lecturer**

DVM, DACVS  
Chief Surgeon  
Dhruva Vet Services  
Austin, Texas

Dr. Shanti Jha, earned a Bachelor of Veterinary Science and Animal Husbandry (BVSc&AH) with honors from Nagpur Veterinary College, Maharashtra, India in 2001. After BVSc, he did an MS from Oregon State University in 2005. Dr. Jha was a general small animal veterinarian for one and a half years in Syracuse, NY after completing an ECFVG certification from Tufts Cummings School of Veterinary Medicine. He then completed a surgical internship at Veterinary Specialists of Northern Colorado, Loveland in 2009. Following this, he completed a Small Animal Surgery Residency at Tufts Cummings School of Veterinary Medicine in July 2012. In 2013 Dr. Shanti Jha became a Diplomate of the American College of Veterinary Surgeons (board-certified small animal surgeon). Before coming to AMSC, Dr. Jha spent time working as Chief of Surgery at VCA Veterinary Specialist of Seattle for the last four years (2012-2016), building an efficient team that helped him in helping small animals needing surgical services. Currently, Dr. Jha owns Dhruva Veterinary Services and provides surgical consultation to OREV Specialty Vet Care in Portland, OR. Apart from general orthopedic and soft tissue surgeries, Dr. Jha has also been heavily trained in minimally invasive surgery (MIS) techniques. He has been doing minimally invasive fracture repairs and arthroscopic correction of joint abnormalities for the last ten years. Dr. Jha is also an AOVET faculty and enjoys teaching orthopedic courses in the US and abroad. His orthopedic areas of expertise include arthroscopy, fracture management of limbs and spine, angular limb deformity correction and joint surgeries.

**Kerwin, Sharon - Lecturer**

DVM, MS, DACVS, DACVIM  
Professor  
Small Animal Clinical Sciences  
College of Veterinary Medicine  
Texas A & M University  
College Station, Texas

Dr. Kerwin received her DVM from Texas A&M University, completed a small animal rotating internship at Louisiana State University and completed a small animal surgery residency at LSU along with a Master of Science degree in veterinary physiology. She is a diplomate of both the American College of Veterinary Surgeons and the American College of Veterinary Internal Medicine (neurology). Her clinical and research interests involve orthopedics and neurology, with a special interest in fracture repair and spinal surgery, as well as feline orthopedics and neurology.

**Tomlinson, James - Lecturer**

BSc, DVM, MVSc, DACVS  
Professor Emeritus of Small Animal Orthopedic Surgery  
Department of Veterinary Medicine and Surgery  
College of Veterinary Medicine  
University of Missouri  
Columbia, Missouri

## Agenda

### Day 1

**Thursday, April 07, 2022 - 08:00 - 19:15 - (includes breaks, travel-time and meals)**

<b>Activity</b>	<b>Area</b>
AO Office	Regent 3
Breakfast	Easton Foyer
Coffee Break	Easton Foyer
FRC	Regent 3
Lecture	Regent 1
Lab	Easton B
Module A	Juniper A
Module B	Juniper B
Module C	Juniper C
Module D	Magnolia
Reception	Easton Foyer
Lunch	Easton Foyer
Registration	Regent Foyer

<b>Schedule</b>	<b>Title</b>	<b>Moderator</b>	<b>Faculty</b>	<b>Room</b>
08:00 - 08:10	COURSE OPENING			
08:00 - 08:10	Welcome and Organization of the Course		Kowaleski, M	
08:10 - 10:00	SESSION I: JOINT FRACTURES AND INJURIES (Part 1)	Kowaleski, M		
08:10 - 08:20	Presentation of Fireside Discussion Case-Joint Fractures		Kowaleski, M	
08:20 - 08:30	Patient Preparation - Skin and Draping		Guiot, L	
08:30 - 08:40	Skin Incision and Soft Tissue Dissection		Saunders, W	
08:40 - 08:50	Methods of Hemostasis		Guiot, L	
08:50 - 09:10	Principles of Locking Plate Fixation		Barnes, K	
09:10 - 09:30	Management of Intra-Articular Fractures		Kerwin, S	
09:30 - 09:50	Transarticular ESF		Bruecker, K	
09:50 - 10:00	Discussion and Questions		Agnello, K Barnes, K Bruecker, K Dejardin, L Dyce, J Guiot, L Hudson, C Jha, S Kerwin, S Kowaleski, M Saunders, W Tomlinson, J	
10:00 - 10:15	Coffee Break			Easton Foyer
10:15 - 12:30	SESSION I (Continued): JOINT FRACTURES AND INJURIES (Part II)	Saunders, W		
10:15 - 10:35	Complex Fractures of the Proximal Ulna		Kerwin, S	
10:35 - 10:55	Complex Fractures of the Humeral Condyle		Kowaleski, M	
10:55 - 11:00	Travel to Fireside Discussion Groups			
11:00 - 12:30	Fireside Discussion of Case of the Day			
	<b>Group</b>	<b>Room</b>		
	Group A	Juniper A		
	Group B	Juniper B		
	Group C	Juniper C		
	Group D	Magnolia		

12:30 - 13:30	Lunch	Easton Foyer
13:30 - 18:15	SESSION II: MIPO	
13:30 - 13:50	Minimally Invasive Plate Osteosynthesis	Agnello, K
13:50 - 14:10	Arthrodesis of the Carpus	Bruecker, K
14:10 - 14:30	MIPO of the Radius and Ulna - Tips and Tricks	Hudson, C
14:30 - 14:45	Change into Scrubs and Travel to Wet Lab	
14:45 - 16:15	Wet Lab A:1 MIPO Radius / Ulna Fracture Repair	Saunders, W
16:15 - 16:30	Coffee Break / Change out of Scrubs / Travel to Dry Lab	
16:30 - 18:15	PRACTICAL EXERCISES - LAB A: 1. Comminuted Intra-Articular Ulna Repair with 2.7mm LCP 2. LCP Distal Humerus (Double Plate)	Kowaleski, M
18:15 - 19:15	Welcome Reception	

## Day 2

**Friday, April 08, 2022 - 08:00 - 18:15 - (includes breaks, travel-time and meals)**

<b>Activity</b>	<b>Area</b>
AO Office	Regent 3
Breakfast	Easton Foyer
Coffee Break	Easton Foyer
FRC	Regent 3
Lecture	Regent 1
Lab	Easton B
Module A	Juniper A
Module B	Juniper B
Module C	Juniper C
Module D	Magnolia
Reception	Easton Foyer
Lunch	Easton Foyer
Registration	Regent Foyer

<b>Schedule</b>	<b>Title</b>	<b>Moderator</b>	<b>Faculty</b>	<b>Room</b>
08:00 - 10:00	SESSION III: COMPLEX FRACTURES OF THE PELVIC LIMB	Kerwin, S		
08:00 - 08:05	Presentation of Fireside Discussion Case-Complex Shaft Fractures		Saunders, W	
08:05 - 08:30	Proximal Femoral Fractures in Young Animals		Dejardin, L	
08:30 - 08:50	Complex Fractures of the Stifle Joint - Dogs and Cats		Tomlinson, J	
08:50 - 09:10	Complex Distal Tibial and Malleolar Fractures		Bruecker, K	
09:10 - 09:50	Radiographic Review of MIPO Radius / Ulna Cases		Saunders, W	
09:50 - 10:00	Discussion and Questions		Agnello, K Barnes, K Bruecker, K Dejardin, L Dyce, J Guiot, L Hudson, C Jha, S Kerwin, S Kowaleski, M Saunders, W Tomlinson, J	
10:00 - 10:20	Coffee Break			Easton Foyer
10:20 - 10:50	Techniques and Clinical Applications of Plate-Rod Constructs for Fixation of Complex Shaft Fractures		Dyce, J	
10:50 - 11:20	Interlocking Nailing of Complex Shaft Fractures		Saunders, W	
11:20 - 11:50	Approach to the Humerus - Tips and Tricks		Hudson, C	

11:50 - 12:00	Discussion and Questions		Agnello, K Barnes, K Bruecker, K Dejardin, L Dyce, J Guiot, L Hudson, C Jha, S Kerwin, S Kowaleski, M Saunders, W Tomlinson, J										
12:00 - 13:00	Lunch / Change into Scrubs												
13:00 - 18:15	SESSION III (Continued): COMPLEX FRACTURES OF THE PELVIC LIMB	Kowaleski, M											
13:00 - 14:50	Wet Lab B: 2. T/Y Fracture of the Distal Humerus	Kowaleski, M											
14:50 - 15:00	Change out of Scrubs / Travel to Firesides												
15:00 - 16:05	Fireside Discussion of Case of the Day												
	<table><tr><th>Group</th><th>Room</th></tr><tr><td>Group A</td><td>Juniper A</td></tr><tr><td>Group B</td><td>Juniper B</td></tr><tr><td>Group C</td><td>Juniper C</td></tr><tr><td>Group D</td><td>Magnolia</td></tr></table>	Group	Room	Group A	Juniper A	Group B	Juniper B	Group C	Juniper C	Group D	Magnolia		
Group	Room												
Group A	Juniper A												
Group B	Juniper B												
Group C	Juniper C												
Group D	Magnolia												
16:05 - 16:15	Travel to Dry Lab												
16:15 - 18:15	PRACTICAL EXERCISES - LAB B: 3. Interlocking Nail Femur Fracture, Plate / Rod Femur Fracture	Saunders, W											

Day 3

Saturday, April 09, 2022 - 08:00 - 18:00 - (includes breaks, travel-time and meals)

Activity	Area
AO Office	Regent 3
Breakfast	Easton Foyer
Coffee Break	Easton Foyer
FRC	Regent 3
Lecture	Regent 1
Lab	Easton B
Module A	Juniper A
Module B	Juniper B
Module C	Juniper C
Module D	Magnolia
Reception	Easton Foyer
Lunch	Easton Foyer
Registration	Regent Foyer

Schedule	Title	Moderator	Faculty	Room
08:00 - 09:25	SESSION III (Continued): COMPLEX FRACTURES OF THE PELVIC LIMB	Kerwin, S		
08:00 - 08:30	Radiographic Review of T/Y Fracture Cases		Kowaleski, M	
08:30 - 08:50	Open But Do Not Touch Fracture Fixation of the Femur - Tips and Tricks		Kerwin, S	
08:50 - 09:10	Minimally Invasive Nail Osteosynthesis of the Femur - Tips and Tricks		Dejardin, L	
09:10 - 09:25	Change into Scrubs / Travel to Wet Lab			
09:25 - 12:00	WET LAB C: 3. OBDNT FEMUR Plate Rod and MINO FEMUR I-Loc ILN	Dejardin, L Dyce, J		
12:00 - 13:00	Lunch			Easton Foyer

13:00 - 14:00	WET LAB C: 3. OBDNT Femur Plate Rod and MINO FEMUR I-Loc ILN (continued)	Dejardin, L Dyce, J
14:00 - 16:10	SESSION IV: DISTAL EXTREMITY INJURIES	Jha, S
14:00 - 14:10	Travel to Lecture	
14:10 - 14:30	Fractures of the Carpal and Metacarpal Bones	Barnes, K
14:30 - 14:50	Absolute vs Relative Stability - Biomechanical Considerations in Fracture Repair	Kowaleski, M
14:50 - 15:10	Tarsal Fractures and Luxations - Cats	Kowaleski, M
15:10 - 15:30	Complex Fractures of the Tarsus - Dogs	Jha, S
15:30 - 15:50	Tarsal Luxation and Arthrodesis in Dogs	Guiot, L
15:50 - 16:10	Discussion and Questions	Agnello, K Barnes, K Bruecker, K Dejardin, L Dyce, J Guiot, L Hudson, C Jha, S Kerwin, S Kowaleski, M Saunders, W Tomlinson, J
16:10 - 16:30	Coffee Break	Easton Foyer
16:30 - 18:00	SESSION V: RADIOGRAPHIC REVIEW OF FEMUR FRACTURE CASES	
16:30 - 18:00	Radiographic Review of Femur Fracture Cases	Dejardin, L Dyce, J

## Day 4

**Sunday, April 10, 2022 - 08:00 - 12:00 - (includes breaks, travel-time and meals)**

<b>Activity</b>	<b>Area</b>
AO Office	Regent 3
Breakfast	Easton Foyer
Coffee Break	Easton Foyer
FRC	Regent 3
Lecture	Regent 1
Lab	Easton B
Module A	Juniper A
Module B	Juniper B
Module C	Juniper C
Module D	Magnolia
Reception	Easton Foyer
Lunch	Easton Foyer
Registration	Regent Foyer

<b>Schedule</b>	<b>Title</b>	<b>Moderator</b>	<b>Faculty</b>	<b>Room</b>
08:00 - 10:10	SESSION VI: COMPLEX PELVIC FRACTURES	Agnello, K		
08:00 - 08:20	Complex Acetabular Fractures		Tomlinson, J	
08:20 - 08:40	Complex Iliac Fractures		Dyce, J	
08:40 - 09:00	Traumatic Hip Luxation		Barnes, K	
09:00 - 09:20	SI Luxation: Open Approach		Agnello, K	
09:20 - 09:40	SI Luxation: Minimally Invasive Approach		Dejardin, L	
09:40 - 10:00	Distal Radial Fracture in Toy Breed Dogs		Jha, S	
10:00 - 10:10	Discussion and Questions			
10:10 - 10:25	Coffee Break			Easton Foyer
10:25 - 12:00	SESSION VII: COMPLICATIONS			

10:25 - 10:50	Nonunion of Fractures - Old and New	Agnello, K
10:50 - 11:10	Open Fractures	Jha, S
11:10 - 11:30	Infection of Bone and Implants	Dyce, J
11:30 - 11:50	Gunshot Fractures	Saunders, W
11:50 - 12:00	Discussion and Questions	Agnello, K Barnes, K Bruecker, K Dejardin, L Dyce, J Guiot, L Hudson, C Jha, S Kerwin, S Kowaleski, M Saunders, W Tomlinson, J
12:00 - 12:00	End of Course	

## AO NA Disclaimer Information

### Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

### Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

### Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used in this course is for teaching purposes only with the intent to enhance the learning experience.

### Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

### Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques or the use of any equipment and accessories used for teaching purposes in the laboratory. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.

### Laboratory Waiver:

To participate in this surgical skills course, you will be required to sign a waiver of liability prior to the course. In order to participate, AONA's policy mandates that every individual must wear appropriate protective garments provided by AO NA during the lab sessions. Participants who do not sign the waiver and wear protective garments will not be allowed to participate in the laboratory sessions.

### Animal Anatomic Specimens:

This course will involve exposure to and contact with animal anatomic specimens. These specimens are being utilized for purposes of teaching and learning and are to be treated with the utmost respect. Participants should be familiar with and understand the potential risks involved and will be required to observe all customary safety procedures.
