

AO Trauma and AO Trauma NA Masters Course—Shoulder Trauma

May 12, 2022 - May 15, 2022
Miami, Florida, USA

Course Description:

The course combines evidence based lectures, small group case discussions, anatomic specimen dissection, and fixation procedures to improve knowledge and skills in the key surgical techniques to treat shoulder trauma. Active engagement by all participants is critical to the effectiveness of the course.

Goal of the Course:

Participants will learn the current management of patient pain, dysfunction, deformity, and cosmesis related to trauma of the shoulder. We will cover fractures from the sternoclavicular joint to the humeral shaft, as well as joint injuries, dislocations and soft-tissue injuries. We will also discuss post-traumatic sequelae such as malunion, nonunion, infection.

Target Participants:

Orthopedic, trauma, and shoulder surgeons with at least 5 years of experience who are committed to updating their expertise, and who want to manage complications and more complex cases.

Participants should have completed the AOTrauma Courses—Basic Principles and Advanced Principles of Fracture Management and must be able to communicate well in English.

No Prerequisites

CME

Continuing Education Credit: 17.75

- AO North America, Inc. (AO NA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for physicians. AONA has been resurveyed by the Accreditation Council for Continuing Medical Education and awarded Accreditation with Commendation.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of AO North America, Inc. (AO NA) and AO Trauma. AO North America, Inc. is accredited by the ACCME to provide continuing education for physicians.

- **Designation Statement** - AO North America designates this live educational activity for a maximum of 17.75 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e., operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

- Perform an appropriate assessment of the patient with trauma to the shoulder
- Perform a thorough, systematic analysis of the injury including its mechanical, biological, and soft-tissue components
- Identify the advantages and disadvantages of appropriate treatment options
- Develop a comprehensive plan based on the needs of the patient, the injury, the patient factors, and the available surgical options
- Complete the plan including operative procedures and nonoperative care
- Anticipate follow up needs and possible complications, including communicating the overall care plan to the patient's family and supporting care system

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used in this course is for teaching purposes only with the intent to enhance the learning experience.

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of

AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the course.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques or the use of any equipment and accessories used for teaching purposes in the laboratory. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.

Laboratory Waiver:

To participate in this surgical skills course, you will be required to sign a waiver of liability prior to the course. In order to participate, AONA's policy mandates that every individual must wear appropriate protective garments provided by AO NA during the lab sessions. Participants who do not sign the waiver and wear protective garments will not be allowed to participate in the laboratory sessions.

Human Anatomic Specimens:

This course will involve exposure to and contact with human anatomic specimens. These specimens are being utilized for purposes of teaching and learning and are to be treated with the utmost respect. Participants should be familiar with and understand the potential risks involved and will be required to observe all customary safety procedures.
