

AO Trauma NA Online Series—Journal Club - Geriatric Perthrochs

December 20, 2022 - December 20, 2022
Online, N/A, USA

Time: 8:00 PM (Eastern)

Target Audience: Orthopaedic Surgeons, Residents, and Fellows

Webinar Overview:

During this monthly series, interviews with authors of landmark orthopedic trauma articles will be featured and discussed. The series will be based on anatomic location/injuries and will provide an opportunity to understand what prompted the study, how practice has changed, limitations, and key take-away points.

Event Summary

CME

Continuing Education Credit: 1.25

- AO North America is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
- AONA has been resurveyed by the Accreditation Council for Continuing Medical Education (ACCME) and awarded Accreditation with Commendation.

- **Designation Statement** - AO North America designates this live educational activity for a maximum of 1.25 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e.), operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

- List implant considerations when fixing pertrochanteric femur fractures
- Recall concerns and limitations of short and long nails when treating pertrochanteric femur fractures
- Recognize the advantages of two screws when fixing pertrochanteric femur fractures
- Describe the benefits of nail diameter in the fixation of pertrochanteric femur fractures

Faculty

Hagedorn, John - Chairperson

MD
Associate Professor
Chief Orthopaedic Trauma, Program Director Orthopaedic Residency
Department of Orthopaedic Surgery and Rehabilitation
University of Texas Medical Branch
Galveston, Texas

John Hagedorn was born in Parkersburg, West Virginia and lived in five states and six cities growing up. Before obtaining his current position as the director and chief of Orthopaedic Trauma at the University of Texas Medical Branch in Galveston, Texas Dr. Hagedorn attended the University of Illinois Urbana-Champaign for undergraduate studies, West Virginia University for Medical School and Residency, and completed his orthopaedic Traumatology Fellowship at the University of Texas Health Science Center in Houston. Dr. Hagedorn enjoys teaching residents, serving as the residency program director, and taking care of injured patients at his hospital.

Kazley, Jillian - Co-Chairperson

MD
Lahey Medical Center
Boston, Massachusetts

Romeo, Nicholas - Co-Chairperson

DO
Assistant Professor
Department of Orthopaedics
Case Western Reserve University
MetroHealth Medical Center
Cleveland, Ohio

Sanders, Drew - Lecturer

MD
Associate Professor
Orthopaedic Trauma
University Texas Southwestern/Parkland
Dallas, Texas

Sanders, Roy - Lecturer

MD
Chief, Department of Orthopaedic Surgery
Tampa General Hospital
Professor & Chairman, Dept. Orthopaedic Surgery
University of South Florida
Director, FOI/TGH Orthopaedic Trauma Fellowship
Editor-in-Chief, J. Orthop. Trauma

Tampa, Florida

Dr. Sanders is the President of Florida Orthopaedic Institute, a group he helped found, and the Director of the Orthopaedic Trauma Service at TGH. He is currently the Chairman of USF's Department of Orthopaedic Surgery. He received his fellowship training at Vanderbilt University, and received the AO Jack McDaniels Trauma Fellowship, under Thomas Ruedi, M.D., in Chur, Switzerland. Upon his return, he spent several months with Sig Hansen, M.D., as a foot and ankle fellow at Harborview Medical Center in Seattle, Washington. He has served as an AO Trustee, and co-chaired the 1st AO Foot and Ankle Trauma Course with Dr. Hansen. He has designed a comprehensive plating system for articular fractures of the upper and lower extremities, as well as developing a complete intramedullary nailing system for long bones with Dr. Toney Russell, M.D. He has authored over 120 articles on orthopaedic trauma, published several textbooks, is a Past President of the OTA (2004-5) and is presently the Editor-in-Chief of the Journal of Orthopaedic Trauma.

Yuan, Brandon - Lecturer

MD
Associate Professor
Division Chair, Orthopedic Trauma Service
Department of Orthopedic Surgery
Mayo Clinic
Rochester, Minnesota

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used or discussed in this educational activity is for teaching purposes only with the intent to enhance the learning experience.

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the educational activity.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques/ approaches discussed or demonstrated which are for teaching and educational purposes only. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.
