

AO Trauma NA Online Series—Journal Club - Both Bone Forearm

August 16, 2022 - August 16, 2022
Online, N/A, USA

Target Audience: Orthopaedic Surgeons, Residents, and Fellows

Webinar Overview:

During this monthly series, interviews with authors of landmark orthopedic trauma articles will be featured and discussed. The series will be based on anatomic location/injuries and will provide an opportunity to understand what prompted the study, how practice has changed, limitations and key take away points.

Upcoming Dates:

September 20 - Mangled Extremities

CME

Continuing Education Credit: 1.25

- AO North America is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AONA has been resurveyed by the Accreditation Council for Continuing Medical Education (ACCME) and awarded Accreditation with Commendation.

- **Designation Statement** - AO North America designates this live educational activity for a maximum of 1.25 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e., operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

- Recognize the historical treatment algorithms and complications of both bone forearm fractures
- Articulate the current goals of surgical treatment of both bone forearm fractures
- Apply the current post-operative protocols for both bone forearm fractures

Faculty

Krupko, Thomas - Chairperson

MD
Assistant Professor of Orthopaedic Trauma
Department of Orthopaedics
University of Florida
Gainesville, Florida

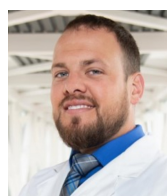

Thomas Krupko is an Assistant Professor of Orthopaedic Trauma and the Clinical Operations Director of Orthopaedics at the University of Florida. He completed his orthopaedic residency at Summa Health Systems in Akron, Ohio in 2018. He completed a fellowship in orthopaedic trauma at the University of Kentucky in 2019. He currently resides in Gainesville, Florida with his wife and two daughters. He has clinical interest in pelvis/acetabulum fractures, shoulder and elbow trauma, foot and ankle trauma, and deformity correction. He is passionate about education in all forms and was inspired to pursue a career in orthopaedic trauma by his experience at the AO basic fracture course.

Hofer, Erin - Co-Chairperson

MD
Hughston Clinic, Orthopaedic Trauma Division
TriStar Skyline Medical Center
Nashville, Tennessee

Undergrad: Morehead State University Med School: Univ of Louisville School of Medicine Residency: Prisma Health Greenville (2015-2020)
Fellowship: Washington University St. Louis (2020-2021)

Phillips, Seth - Co-Chairperson

DO
Mercy St Vincent Medical Center
Assistant Clinical Professor
Ohio University HCOM
Associate Residency Program Director
Toledo, Ohio

Hubbard, David - Evaluator

MD
Professor
Medical Director Perioperative Services WVUH
Department of Orthopaedic Surgery
West Virginia University
Morgantown, West Virginia

Dr David Hubbard hails from Morgantown, West Virginia. He is Professor in the Department of Orthopaedic Surgery at West Virginia University Hospital and Chief of the Orthopaedic Trauma Service. He is board-certified and fellowship trained orthopedic trauma surgeon. He completed his orthopedic residency at West Virginia University Hospital in 1994. He then completed his orthopedic trauma fellowship at the prestigious University of Washington at Harborview Medical Center in Seattle, Washington. Dr Hubbard has been involved with AO his entire career serving as faculty member, chairman of multiple courses in North America and Europe and on multiple committees. He also served as a Trustee for the AO Foundation. Dr Hubbard is currently a busy orthopedic trauma surgeon and educator at West Virginia University Hospital.

Chapman, Michael - Lecturer

MD
Dept. of Orthopaedic Surgery
University of CA, Davis Medical Center
Sacramento, California

Medical School: University of California San Francisco (UCSF) 1962; Orthopaedic Residency UCSF 1967; Total Joint observership, Nat'l Orthopaedic Hospital, London, GB, 1967; Major U.S. Army 1-1968 to 12-1970; Assist. Chief of Orthopaedics; San Francisco General Hospital 1971-1979; Chair Department of Orthopaedic Surgery University California Davis Health System 1979-2000. 190 publications including CHAPMAN'S COMPREHENSIVE ORTHOPAEDIC SURGERY, FOURTH EDITION 2019

**Marchand, Lucas - Lecturer**

MD, BS
Assistant Professor
Orthopaedic Trauma
Department of Orthopaedics
University of Utah
Salt Lake City, Utah

Lucas S. Marchand, MD – completed his bachelor's degree in Zoology from Idaho State University. He received his Medical Doctorate degree from the University of Washington and completed his residency training at the University of Utah Department of Orthopaedic Surgery. Following residency he then completed additional fellowship training in orthopaedic traumatology at R Adams Cowley Shock Trauma Center/University of Maryland Baltimore.

**Schemitsch, Emil - Lecturer**

MD, FRCSC
Richard Ivey Professor and Chair
Department of Surgery
University of Western Ontario
London, Ontario

Agenda

Day 1

Tuesday, August 16, 2022 - 20:00 - 21:15

Schedule	Title	Moderator	Faculty	Room
20:00 - 20:05	Welcome		Krupko, T	
20:05 - 20:20	Video 1 - Compression-Plate Fixation of Acute Fractures of the Diaphyses of the Radius and Ulna		Chapman, M Krupko, T	
20:20 - 20:39	Video 2 - The Effect of Malunion on Functional Outcome after Plate Fixation of Fractures of Both Bones of the Forearm in Adults		Hofer, E Schemitsch, E	
20:39 - 20:50	Video 3 - Immediate Weight Bearing of Plated Both-Bone Forearm Fractures Using Eight Cortices Proximal and Distal to the Fracture in the Polytrauma Patient Is Safe		Marchand, L Phillips, S	
20:50 - 21:10	Questions/Discussion		Chapman, M Hofer, E Krupko, T Marchand, L Phillips, S Schemitsch, E	
21:10 - 21:15	Wrap Up/Adjournment		Hofer, E Krupko, T Phillips, S	

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used or discussed in this educational activity is for teaching purposes only with the intent to enhance the learning experience.

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the educational activity.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques/ approaches discussed or demonstrated which are for teaching and educational purposes only. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.
