

AO Spine NA Seminar-Part II ABOS Oral Board Review

June 22, 2024 - June 22, 2024

Chicago, Illinois, USA

Are you a spine surgeon preparing to take your oral boards? This one-day workshop, designed for spine surgeons by board-certified orthopedic spine surgeons, will simulate the actual oral examination given by the American Board of Orthopaedic Surgery (ABOS). You will have an opportunity to present your selected spine and other cases to expert faculty who will ask questions and provide feedback to help you prepare for the exam. Faculty will evaluate you on data gathering; interpretive and technical skills; diagnosis and treatment; outcomes; and applied knowledge.

Upon completion, participants will be:

- Ready to take the Part II ABOS Oral Examination
- Able to answer questions about their cases and case lists in a concise and orderly fashion
- Able to identify areas for refinement and further study that would be beneficial in exam preparation.

Although this program was initially designed for board-eligible orthopedic spine surgeons who are preparing to take the Part II ABOS (Oral) Examination; we have had interest from neurosurgeons who are looking for more opportunities to review their spine cases prior to their boards. If you fall into either category, we encourage you to register for the course. To provide the appropriate faculty-to-participant ratio, space is limited for this course; so, sign up today

CME

Continuing Education Credit: 7.00

- AO North America is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement - AO North America designates this live educational activity for a maximum of 7.00 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e.), operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

- Able to answer questions about cases and case lists in a concise and orderly fashion
- Identify areas for refinement and further study that would be beneficial in exam preparation
- Ready to take the Part II ABOS Oral Exam

Faculty

Jackson II, Keith L - Chairperson

MD
Chief
Orthopaedic Spine Surgery
Eisenhower Army Medical Center
Fort Gordon, Georgia

Dr. Keith Jackson currently serves as the Chief of Spine Surgery at Eisenhower Army Medical Center (DDEAMC) in Augusta, GA. Prior to moving to Augusta, Dr. Jackson served as the Chief of Orthopaedic Surgery at Fort Bragg, NC. He completed his Spine Fellowship at UPMC in 2014 and Orthopaedic Surgery Residency at Dwight David Eisenhower Army Medical Center in 2013. Additionally Dr. Jackson is a graduate of the Georgetown University School of Medicine (2008) and The United States Military Academy (2004).

Agochukwu, Uzundu - Lecturer

MD
Professor
Program Director, Orthopaedic Surgery Residency
Co-Director, Spine and Reconstructive Surgery Fellowship
Department of Orthopaedic Surgery
Medical College of Georgia (MCG) at Augusta University
Augusta, Georgia

Dr. Agochukwu is a board-certified orthopaedic surgeon specializing in spine surgery. He graduated from Louisiana State University, and received his medical degree from Indiana University School of Medicine. He completed his internship and residency at Madigan Army Medical Center. During his military service, he was stationed at Fort Bragg, North Carolina where he had the privilege of taking care of service men and women, to include Army and Air Force elite Special Operation Units. He then completed a spine fellowship in Augusta, Georgia. His clinical interest and research focus centers on minimally invasive spine surgery, motion preservation surgery, as well as deformity and complex spine revision surgery.

Cui, Shari - Lecturer

MD, FAOS
Associate Professor
Orthopaedic Spine Surgery
PRISMA Health USC Dept of Orthopaedic Surgery
Columbia, South Carolina

Dr. Shari Cui is clinical faculty of Orthopaedic Spine Surgery at PRISMA Health USC Dept of Orthopaedic Surgery where she engages in clinical practice, research, and academic training of residents and fellows. She specializes in the treatment of adult spinal disorders.

Daffner, Scott - Lecturer

MD
Professor
Department of Orthopaedics
West Virginia University
Morgantown, West Virginia

France, John - Lecturer

MD
Vice Chairman and Chief of Spine Surgery
Department of Orthopaedic Surgery
West Virginia University
Morgantown, West Virginia

Dr John France is Professor of Orthopaedic Surgery and Neurosurgery at West Virginia University where he also serves as vice chairman of Orthopaedic surgery and chief of spine surgery. He has been at West Virginia University since 1995 after serving as an Orthopaedic surgeon in the United States Air force at Wilford Hall Medical Center, Lackland AFB, San Antonio, Texas. His undergraduate degree was from the University of Pennsylvania, medical degree for the University of Pittsburgh, he stayed at the University of Pittsburgh as a General Surgery intern then went to the State University of New York in Buffalo for Orthopaedic residency, and finally did his spine fellowship at the University of Colorado. He is currently an active member and serves on and as chair of committees in the AAOS, SRS, CSRS, OTA, and NASS. He began as AO Trauma faculty in 1993 then was involved in AO Spine from its onset in the mid 1990's. His involvement in the AO has been extensive serving on and as chair of various national and international committees as well as serving as faculty for innumerable courses. He is currently chair of the international faculty development committee. His current practice still includes a significant amount of complex trauma in addition to his tertiary spine practice.

Segebarth, Brad - Lecturer

MD
Dr.
Director, OrthoCarolina Spine Fellowship Program
Associate Professor Atrium Health MSK
Director, Novant Health Spine Trauma/E-Service Charlotte Region
Charlotte, North Carolina

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the course.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques or the use of any equipment and accessories used for teaching purposes in the laboratory. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.

Laboratory Waiver:

To participate in this surgical skills course, you will be required to sign a waiver of liability prior to the course. In order to participate, AONA's policy mandates that every individual must wear appropriate protective garments provided by AO NA during the lab sessions. Participants who do not sign the waiver and wear protective garments will not be allowed to participate in the laboratory sessions.
